

MATERIALS

We are one of Europe's leading Cathodic Protection Engineering companies with ISO.9001 approval, specialising in the following major product lines which we either manufacture, distribute or exclusively represent :

Mixed Metal Oxide Anodes	We are distributors of the ELTECH range of MMO Anodes supplied as anodes only or fully assembled/ cabled
Magnesium Anodes Magnesium Ribbon Magnesium Rod	We stock 1.5V and 1.7V Pipeline and Tank Anodes and the most commonly required Magnesium Ribbon Rod Anodes.
Silicon Iron Anodes Solid & Tubular	CCEL manufactures at our Foundry anodes which are available bare or encapsulated with cable and heatshrink anode caps and also canistered. Tubular anodes are also supplied with centre cable Connected.
Aluminium & Zinc Anodes	We manufacture an extensive range of standard aluminium & zinc anodes at our Foundry. We also manufacture to customer's specifications.
Cathodic Protection Cable	We are the worldwide Distributor of the exclusive KATHODICA™ and BASCORAD™ cables In sizes from 2.5mm ² to 185mm ²
Cable Joint Kits	We stock a range of cable jointing kits, for both In-line and branch applications for Cathodic Protection applications
Transformer Rectifiers Test / Bond Boxes	We offer a range of air and oil-cooled Test/Bond Boxes manufactured to meet customers specifications.
Backfills	We exclusively distribute the "Terrier" range of High performance carbonaceous and calcined Backfills.
Anode caps	We distribute anodes caps to cover the full range of Silicon Iron anodes that we manufacture and supply
Test Point Stations	We manufacture a wide range of concrete, steel and Non-metallic stations.
Polarisation Cells	We distribute solid state and electrolytic devices.
Flange Insulation Gaskets	We offer the full range of pipeline insulating

SUMMARY SHEET
CATHODIC PROTECTION
MATERIALS

Insulators & End Seals	products.
Monolithic Isolating Joints	High specification, ½” to 52”, 10 bar to ANSI 2500 -20 deg C to +150 deg C.
DCVG Equipment	We supply a range of DCVG equipment
Test Instruments	CCEL are a distributor of a wide range of testing instruments including Nilsson pipe locators, Earth Testing Meters and M.C. Miller multimeters.
Reference Cells	We manufacture and distribute a variety of reference electrodes both permanent and portable including the Permacell range.
Thermite Welding	CCEL are a major distributor for the ThermOweld and Cadweld range of equipment
Pin Braze	We are distributors of Safetrack Pin brazing equipment and materials.

This sheet is just a summary and detailed data sheets on the above and other CP products and materials are available on request.
